SUBJECT OF EXAMINATION: Written test will cover knowledge, skills, and/or abilities in such areas as:

Questions will involve addition, subtraction, multiplication and division. You may also be asked to calculate averages, to use percents, and to round an answer to the nearest whole number. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test. You will not be permitted to use the calculator function of your cell phone.**
2. Principles and practices of purchasing - These questions test for candidates' knowledge of the principles guiding governmental purchasing operations and the ability to put them into practice. 4. Understanding and interpreting written material - These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. **You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.**
