Educational Programs at Dutchess County Parks

We offer educational opportunities for children and adults of all ages. Our programs tend to be hands on oriented to facilitate learning through experience rather than lecture. Throughout the year, our schedule includes:

School Programs

Our school programs are focused on Grades K through Fifth. We are always striving to create new programs that meet the needs of our local schools. Some of the programs we currently offer are:

-  **Maple Sugaring**
-  **Pond Exploration**
-  **Map & Compass**
-  **Basic Survival**
-  **Animal Track ID**
-  **Mammal Studies**
-  **Prehistoric Native Americans**

School Outreach

Some of our programs can be adapted for outreach. We have had great success with in-school programs when field trips were difficult to arrange. We modify the programs based on the school facilities and the needs of the classes.

Scout Programs

We work with Boy Scout and Girl Scout Troops to develop programs that meet their needs. Some of our past programs include:

-  **Orienteering**
-  **Tracking**
-  **Archery**
-  **Basic Survival**

Summer Programs

Our Summer Programs allow participants to spend time learning about nature and the outdoors. Our small group size fosters a better learning environment and permits us to cover in-depth material more easily. Our three programs are:

- Day Program** (Ages 9 - 11)
- Intensive Program** (Ages 12 - 14)
- Complete Survival** (Ages 12 - 14)
