# Major Projects Report Overview

The annual Major Projects Report is a compilation of selected information about development projects proposed in Dutchess County (as of December 2010). This report is designed to identify economic activity throughout Dutchess County and provide local officials with information on proposed developments affecting their communities and their decisions. The information in the report can be used not only by public officials, but also by the general public and the private sector to plan development activities.

Many of these projects are in the early stages of the planning and approval process, and all projects stay in the report until they are either fully constructed, withdrawn by the sponsor, denied by the municipality, or not resubmitted following approval expiration. During the planning and design process, projects may be downsized and may therefore be removed from the report because they no longer meet the criteria for a major project (see *Criteria for Inclusion in Major Projects Report* on page 3). For the actual project status at a particular time, the local municipality which has review and approval authority should be contacted (see Appendix for list of municipal phone numbers on page 28). Being listed in the report does not imply approval of a project by the Poughkeepsie-Dutchess County Transportation Council or the Dutchess County Department of Planning and Development.

Information on proposed projects is gathered from a variety of sources including municipal zoning referrals, municipal board members and staff, meeting minutes, environmental review documents, and newspaper reports. The Major Projects Report is a planning tool. It is not a list of projects that will definitely be constructed, but rather a list of proposed projects that may someday be completed.

The report includes: the location of the project (tax parcel designation and access road); the general nature of the project (e.g., office development, apartments or infrastructure improvement); and the scale of the project as reflected by the number of dwelling units, the square footage, or the acreage. Complete information on a particular project may not be available when it is listed on the report.

## Parcel Data Available Online

Citizens and government officials alike can view specific tax parcel information online at the County's website (visit [www.dutchessny.gov](http://www.dutchessny.gov)). This free service, entitled "Parcel Access", includes the following information:

- Assessment data
- Parcel search capabilities
- Aerial orthophoto backdrop
- Easy-to-use mapping layers
- Print option

## Methodology

To complete this update, a letter was mailed to each municipal planning board asking them to review the listing of active major projects and update the information for their community. County Planning Department staff also gathered information from zoning referrals, environmental review documents, meeting minutes and newspaper reports. The resulting list is the best available information at this time on the projects that meet the criteria of the Major Projects Report (see *Criteria for Inclusion in Major Projects Report* on page 3). Complete information on a particular project may not be available when it is listed in the report.

Some projects may cross municipal boundaries, and are listed under each municipality involved. Also, many projects have both residential and non-residential components. This list breaks each project down into the separate components, but each component shares the same map number. In these cases, the project is still only counted as one project.

## Summary of 2010 Data

As of December 2010, there are 172 separate projects listed (some projects have both residential and non-residential components – see Table 5 for more information.). This includes:

- 11 residential proposals with a total of 16,575 proposed housing units;
- 81 non-residential proposals with a total of almost 7 million square feet;
- Eight rezoning proposals.

This shows a 2.9% increase in proposed housing units since the 2009 Major Projects Report, which included 16,114 housing units. The report also shows a 1.1% decrease in the number of proposed non-residential projects since the 2009 report, which included 7,059,224 square feet of non-residential space.

Since the most recent Major Projects update of 2009 (see Tables 3 and 4):

- 16 new projects were added to the report;
- 2 projects were completed (constructed or rezoned);
- 9 projects were withdrawn;
- 4 projects had their approvals expire;
- 1 project was reduced below the threshold for Major Projects.

Both the southern and middle portions of the county are seeing higher numbers of development proposals. In terms of residential development, the towns of Dover, East Fishkill, Fishkill, Hyde Park, LaGrange, Pine Plains, and Poughkeepsie each have over 1,000 proposed housing units, with a combined total of 12,513 units. These seven towns alone account for over 75% of all units proposed in Dutchess County for projects meeting the Major Projects criteria.

Also notable is the number of apartments, condos, and townhouses that are proposed throughout the county – at least 8,119 non-senior units (not including several projects that have yet to define the number of units) - which accounts for almost 49% of all proposed housing units on the list. Of those, 190 units involve income restrictions and are considered affordable/workforce housing. A significant number of senior housing units are also proposed – 1,475 – most of which are apartments, townhouses, and condominiums. Of those, 94 units are considered affordable senior housing.

Non-residential development proposals are also concentrated in the southern and middle parts of the county. The towns of East Fishkill and Hyde Park lead with a combined total of over 3.2 million square feet proposed. In addition, the City of Beacon and towns of Dover, LaGrange, Pawling, and Poughkeepsie each have more than 400,000 square feet of non-residential space proposed.

Although the Major Projects Report is generally intended to track new construction, in some cases projects that represent a significant change in the use of existing structures will be included. Currently, this report includes 4 such projects:

1. The retail component of the redevelopment of the Luckey Platt department store in the City of Poughkeepsie;
2. The redevelopment of the Hudson River Psychiatric Center into housing and commercial space in the Town of Poughkeepsie;
3. The redevelopment of the South Hills Mall;
4. Several buildings on the former Harlem Valley Psychiatric Center site are being incorporated into the Knolls of Dover mixed-use project.

## Access Roads

Dutchess County, like other areas throughout the country, continues to see a great amount of commercial and residential development along major transportation routes. This linear pattern of development, commonly called “strip development,” greatly affects the efficiency of roads. Commercial strips can create traffic congestion, reduce the capacity of roads to move through-traffic efficiently, and cause safety problems. It also takes business away from “downtown” districts and can be visually unpleasant.

Table 6 lists major projects organized by primary access routes. Since 1990, when this report began listing major projects by primary access road, US Route 9 has been the road with the most development activity. It is the most firmly established strip development route in Dutchess County.

The recent resurgence of commercial development and the spread of residential development into rural areas have put many primary access roads at risk for new or increased strip development. Looking at past growth patterns and current development proposals, it is possible to predict these potential problem areas: NY 22 in the Harlem Valley, NY 52, 9D and 82 in southern Dutchess, US 44 and NY 115 in the towns of Poughkeepsie and Pleasant Valley, NY 9G in Hyde Park, and NY 55 in LaGrange.

There is no simple or easy solution to this problem, but with the implementation of comprehensive design controls, new development can be integrated with the surrounding community environments. Local decision-makers should be aware of the potential for strip development in order to better protect their communities from this undesirable land use. There are many design guidebooks available that local decision-makers can use in their planning process. They can also contact the Dutchess County Department of Planning and Development for assistance.

## Criteria for Inclusion in Major Projects Report

The report focuses on those proposed projects that could have significant impacts on the area. It would be cumbersome to track every project that has been proposed in the county: only projects meeting a certain criteria are included. The thresholds that have been established are listed below.

**For urban municipalities** (the cities of Beacon and Poughkeepsie, the towns of East Fishkill, Fishkill, Hyde Park, LaGrange, Poughkeepsie and Wappinger, and the villages of Fishkill and Wappingers Falls):

- 25 residential dwelling units; or
- 25,000 square feet of non-residential gross floor area; or
- Rezoning or change in use for an area which exceeds 10 acres.

**For rural municipalities** (the towns of Amenia, Beekman, Clinton, Dover, Milan, North East, Pawling, Pine Plains, Pleasant Valley, Red Hook, Rhinebeck, Stanford, Union Vale, and Washington and the villages of Millbrook, Millerton, Pawling, Red Hook, Rhinebeck, and Tivoli):

- 10 residential dwelling units; or
- 10,000 square feet of non-residential gross floor area; or
- Rezoning or change in use for an area which exceeds 25 acres.

While this report covers projects that meet these thresholds, it does not reflect the cumulative effects of smaller projects which are not included.

## Description of Report Components

The following description of the report elements can be used to interpret the data in the tables.

- PID:** The Project Identification Number is the numerical key to locating projects on the Major Projects maps, which are located at the end of the report.
- Municipality:** The municipality in which the project is located. The municipality may be a town (T), city (C), or village (V).
- Project:** The title or most recognized reference name of the proposed project.
- Applicant:** The name of the applicant, or the applicant's representative.
- Access Road:** The road which provides primary access to the property. For example,  
I = Interstate  
US = US Route  
NY = State Route  
CR = County Route

Local Roads = the name of the road and one of the following abbreviations:

- |               |                   |
|---------------|-------------------|
| Ave. = Avenue | Dr. = Drive       |
| Rd. = Road    | Pl. = Place       |
| Ln. = Lane    | Blvd. = Boulevard |
| St. = Street  | Cir. = Circle     |
| Ct. = Court   |                   |

The exceptions to this are those segments of highways which have dual numbers such as US44/NY55 in the City of Poughkeepsie. In these cases, the smaller number shall be indicated first. The sole exception is State Road 987G, which is known as the Taconic State Parkway, and may be referred to as the TSP in this report. Dual roads are as follows:

- |           |           |
|-----------|-----------|
| NY 9G/199 | NY 82/376 |
| NY 22/55  | US44/NY22 |
| NY 22/343 | US44/NY55 |
| NY 82/199 | US44/NY82 |

**Parcel:** The county real property tax number. A “+” sign shown in the column following the parcel number indicates that the project involves more parcels than the single parcel identified.

**Activity:** The general type of project, as follows:

*Residential\*:*

Apt = Apartments  
Condo/TH = Condominium, Townhouse, Cooperative, Cluster  
Dorm = Dormitory  
Mobile = Mobile Home Park  
SFR = Single Family Residential

\*Where applicable, the following project restrictions are indicated on Table 5:

Senior = Age-Restricted (55+) Housing  
Aff = Affordable Housing (income restricted)

*Non-Residential:*

Assist = Assisted Living  
Hosp/Med = Hospital or other Medical Facility  
Hotel = Hotel/Motel  
Indust = Industrial  
Infra = Infrastructure  
Nursing = Nursing Home  
Office = Office  
Open Sp = Preserved Open Space  
Pub/Inst = Public/Institutional  
Rec = Recreation  
Retail = Retail/Restaurant  
Rezone = Rezoning

**# Units:** The number of units in proposed residential projects. For Dorm and Hotel projects, this represents the number of beds (unit counts for Hotel projects are not included in residential unit totals).

**Sq. Feet:** The square footage of gross floor area, as applicable, in proposed projects.

**# Acres:** The total site acreage, as applicable, in proposed projects.

**Entry:** The month and year that the information on the proposed project was entered in the report by the Department of Planning and Development.

## Conclusion

The Major Projects Report is a tool that can give local decision-makers an idea of the development that is occurring in surrounding communities and in the county. With this information, they may be able to get a broader view of the impacts a single development may cause and consider those impacts in their approval processes. The Major Projects Report can also be used by developers to determine possible competition or general trends in the local economy.

The Dutchess County Department of Planning and Development will continue to track development in the county and contact the local municipalities to verify information in order to provide the most accurate report possible. If you have any suggestions for making this information more useful to you, please write or call the Department of Planning and Development with your suggestions.

<sup>1</sup> Specific parcel information is available for review online via "Parcel Access" at [www.dutchessny.gov](http://www.dutchessny.gov).

<sup>2</sup> A "+" sign indicates that the project involves more parcels than the single parcel identified.

<sup>3</sup> Where indicated, the following project restrictions apply as follows: Senior = Age-Restricted (55+) Housing  
Aff = Affordable Housing (income restricted)

<sup>4</sup> These municipalities did not provide the County with updated information. Projects included are those from the previous report, plus new ones that the County is aware of. Please note that the Major Project information for these municipalities may not be accurate or complete.

<sup>1</sup> Specific parcel information is available for review online via "Parcel Access" at [www.dutchessny.gov](http://www.dutchessny.gov).

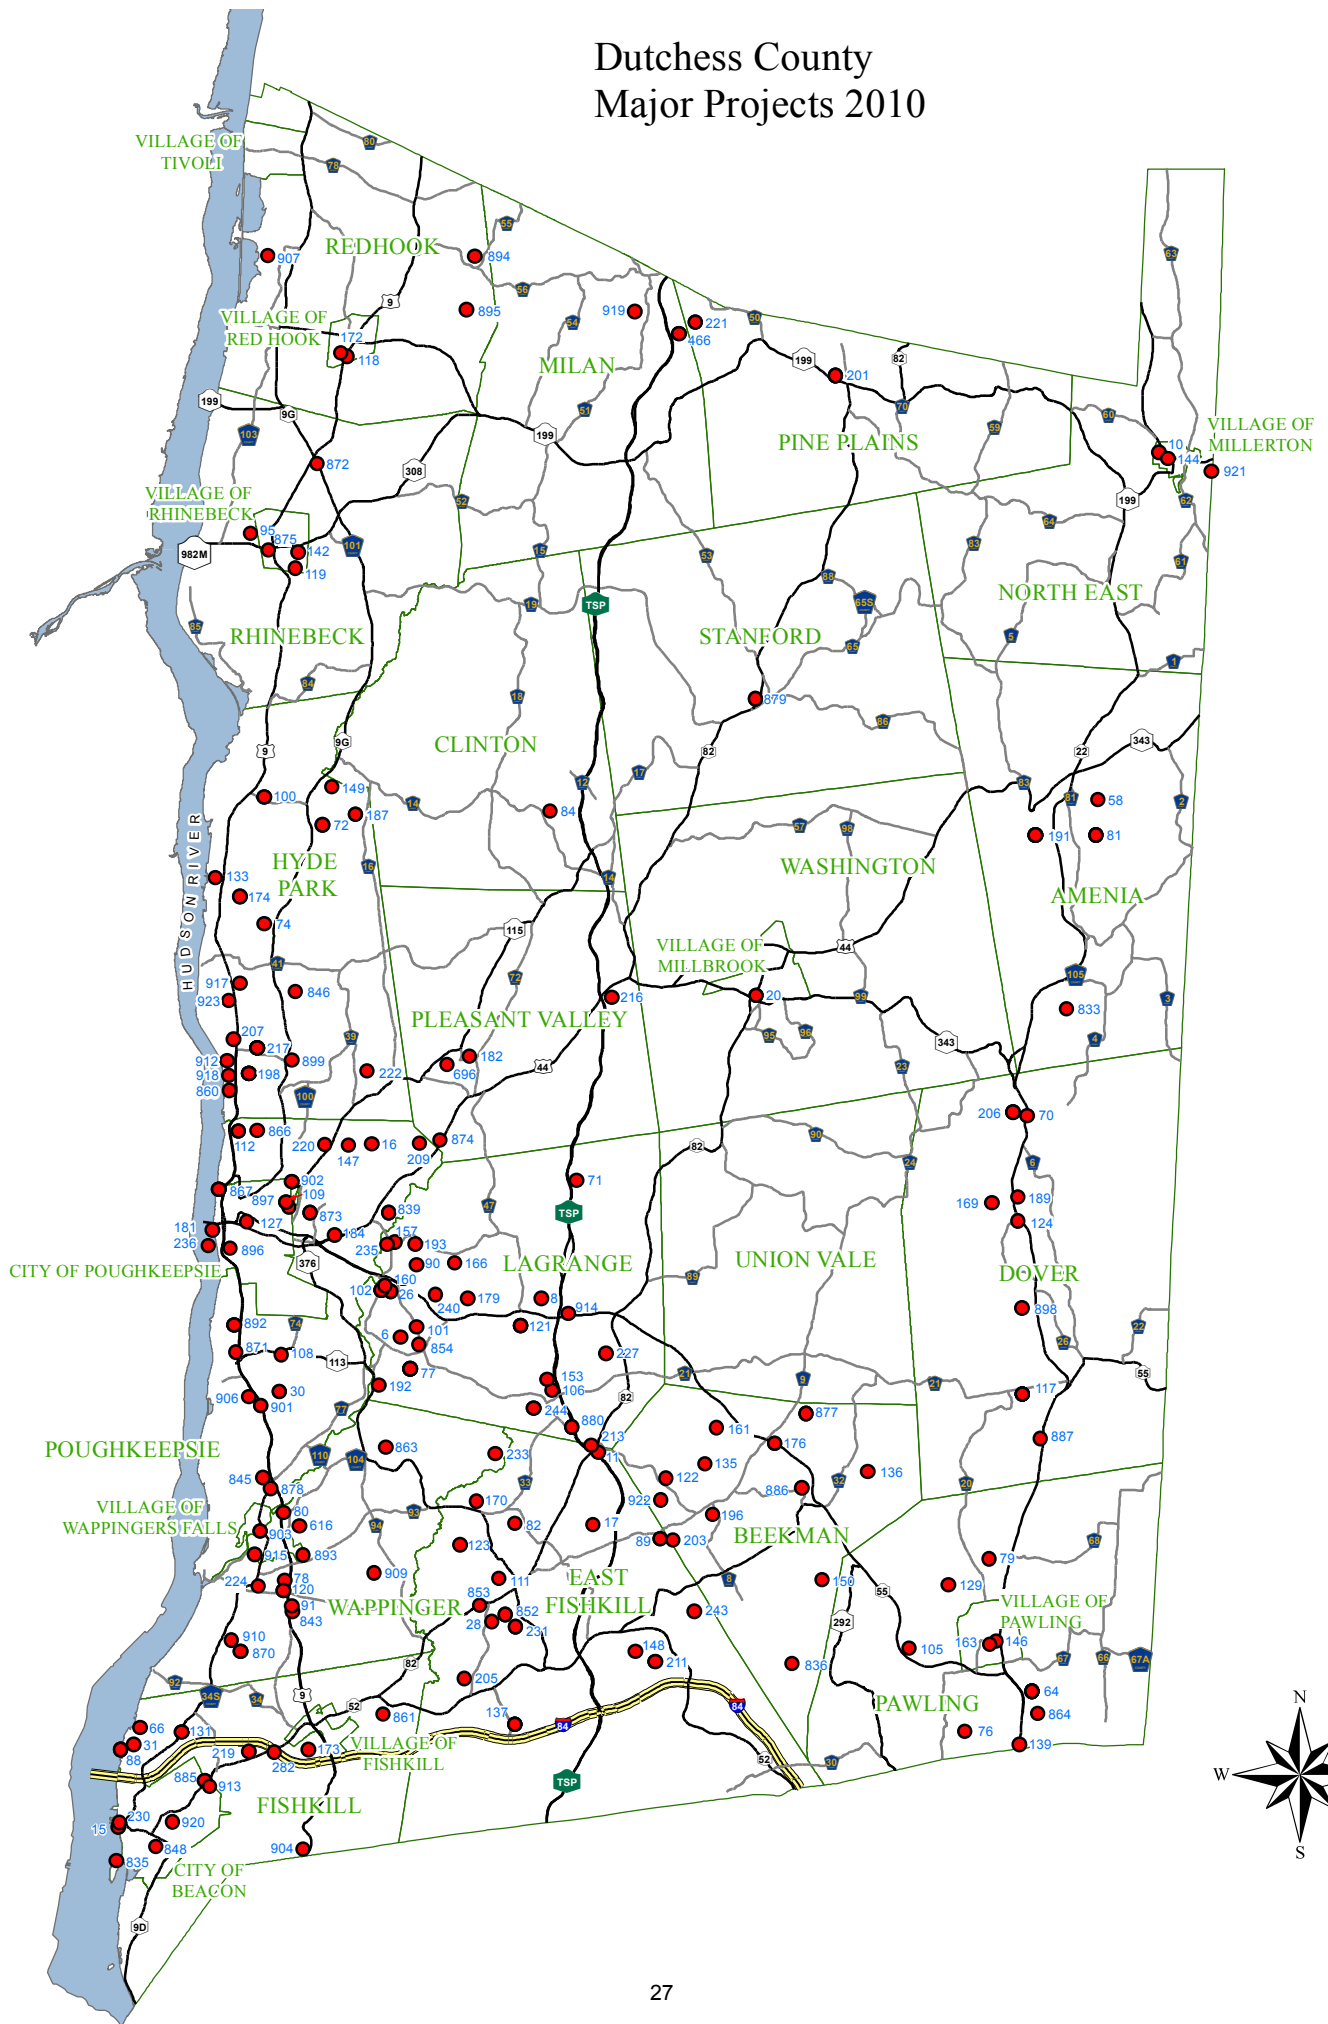

<sup>2</sup> A "+" sign indicates that the project involves more parcels than the single parcel identified.

<sup>3</sup> Where indicated, the following project restrictions apply as follows: Senior = Age-Restricted (55+) Housing  
 Aff = Affordable Housing (income restricted)

<sup>4</sup> These municipalities did not provide the County with updated information. Projects included are those from the previous report, plus new ones that the County is aware of. Please note that the Major Project information for these municipalities may not be accurate or complete.
