

DUTCHESS COUNTY

SHARED SERVICES

Computer IT Services

New -Starting 2014

The Office of Central and Information Services (OCIS) is responsible for all Computer IT services for Dutchess County Government.

Based on interest shown during shared services meetings, the County is pleased to now offer municipalities a range of IT Services from our award winning OCIS. These services include:

- Website Development
- PC / Server Tech Services
- Network Services
- Software Development
- IT Consulting and Assessments

OCIS is offering these services at special rates to local municipalities.

Contact Chris Barclay below to find out how OCIS may help you with your computer services needs.

DUTCHESS COUNTY

SHARED SERVICES

Website Development

New -Starting 2014

Based on interest shown during shared services meetings, the County is pleased to offer website development to municipalities by the same County OCIS team that develops and manages the County Website (dutchessny.gov).

As part of the municipal websites, OCIS can incorporate advanced features from the County's award winning Website. Available features include:

- Full Content Management
- Public Alerts and Advisories
- Consolidated Calendar
- Dutchess*Delivery* Public Outreach
- Digital Newsletter
- Integrated Map Directions
- Advanced Mapping service to highlight points of interest
- Website Feedback Survey
- Language Translation of all web pages

Contact Chris Barclay below to find out how OCIS may help you with your website development and hosting.

DUTCHESS COUNTY

SHARED SERVICES

Dutchess*Delivery* Service

... Keeping our residents informed through better,
more effective communication

WHY?

All levels of government must find innovative and cost effective ways to communicate with the public and keep residents informed about services, events and meetings, timely news, public safety issues and critical advisories.

WHAT?

Dutchess County Government is excited to offer local municipalities the opportunity to incorporate the **Dutchess*Delivery*** public outreach service into their municipal websites. Key features include:

- Residents subscribe to topics of interest through your Municipal Website
- Your website information is automatically “pushed” to residents via email (and text message in some cases)
- An advanced Bulletin feature for easy creation of electronic Newsletters
- Cross-promotion of your topics between the municipal and County websites

Dutchess*Delivery* can significantly enhance communications with your residents. Through negotiations and with a consolidated service contract, the County can provide this shared service at a fraction of what the cost would be to a municipality.

Come join other municipalities that have signed up for this great shared service.
