SECTION A. PROJECT

Subdivision or Project Name _____ Lot Number _____
 Tax Map # _____ Filed Map # _____ Location (T,V,C) _____

SECTION B. OWNER

Owner Name _____ Phone _____
 Mailing Address _____
 City/State/Zip _____

SECTION C. WELL INFORMATION

Well Abandonment

Abandoned well (check here) _____

New Well

Use of New Well Residential Business Farm
 Test/Observation Institutional Other (explain) _____

Purpose of Well New Supply Additional Supply Test/Observation
 Replace Existing Supply Deepen Existing Well

Well Type Drilled Driven Dug
 Gravel Other

Estimated depth _____ Proposed diameter of well and drill hole (inches) _____

Is well site subject to flooding? Yes No

Is public water supply available? Yes No Name of supply: _____

Distance to property line from nearest water main _____

Location sketch and sources of contamination on reverse side (required only if owner does not have an approved plan).

SECTION D. WELL DRILLER

Well Driller _____ Phone _____
 Mailing Address _____ City/State/Zip _____

SECTION E. FOR HEALTH DEPARTMENT USE ONLY

Approved: Yes No (Reason) _____

Signature _____ Date _____

SKETCH: Show approximate distance and relative elevation to well of any potential sources of ground water pollution which may be located within 200 feet of such well including without limitation, the following: privy, sewage seepage pit, sewage filter bed, sewage disposal field, underground sewers, septic tank, storm water drain, building foundation drain, milk house drain outlet, manure pile, barn gutter, silo, abandoned well, other well, sink hole, cow yard, hog lot, chicken yard, other animal yard, stone quarry, mine, rock outcrop, rain water cistern, solid waste disposal site, calcium or salt piles and show distance to well from existing and proposed structures, as well as property lines located within 100 feet.

NOTE: Within 30 days of the completion of water well construction, the owner or his agent shall submit a well log to the Dutchess County Department of Health. Such well log shall specify the well location, depth and diameter, formations penetrated, casing depth, extent and nature of grouting, well output tests and associated water levels, and any other information required. In addition, analytical data of the water quality associated with such well shall be submitted when available.

FOR WATER WELL ABANDONMENT: Every abandoned well shall be sealed or closed so as to protect the aquifer from pollution and to prevent a hazard to life and property. If such well is to be sealed or closed, the owner of the property shall make application of notification to abandon such water well and provide the reason for abandonment and a description of work to be performed to effect the abandonment:

Description:
